

Sound Policy. Quality Care.

November 15, 2019

The Honorable Rand Paul, MD
167 Russell Senate Office Building
Washington, DC 20510

Dear Senator Paul:

As the Alliance of Specialty Medicine (Alliance), our mission is to advocate for sound federal health care policy that fosters patient access to the highest quality specialty care. As patient and physician advocates, the Alliance commends your legislation, the *Medicare Patient Empowerment Act of 2019 (S. 2812)* which would establish a Medicare payment option for patients and eligible professionals to freely contract, without penalty, for Medicare fee-for-service items and services, while allowing Medicare beneficiaries to use their Medicare benefits.

Current law requires Medicare beneficiaries to pay out-of-pocket if they choose to see a physician that does not accept Medicare and Medicare will not cover any portion of the charges incurred. Further, physicians who choose to provide covered services to Medicare beneficiaries under private contracts must "opt out" of the Medicare program for two years. Medicare will not pay the physician for any covered services provided to Medicare beneficiaries during that time. Medicare beneficiaries—tax-paying Americans who have paid into the program for years—should not be prevented from using their Medicare benefits if they choose to see a physician that does not accept Medicare. These discriminatory policies are inappropriate and impede Medicare beneficiaries' freedom of choice.

Your legislation will help restore confidence in the Medicare program by ensuring beneficiary access to any physician they choose to see, regardless of the physician's participation status.

Sincerely,
